GAME recommends installation of Outdoor Solar Shower to solid surface to insure stability and safety.

When using tools, care must be taken not to damage chrome plating. GAME recommends using a cloth between wrench and shower parts to avoid damage.

MOUNTING THE SHOWER

1. Choose a location for shower that receives the most direct sunlight.
2. Use the base plate/lower tube to mark the position of mounting holes to be drilled for bolts. **FIGURE 1**
3. Remove shower section. Drill $\frac{1}{2}$ " diameter holes, $1\frac{3}{4}$ " deep, using the marks just created.
4. Insert expansion nuts into drilled holes. Place base plate/lower tube over holes and secure to surface with bolts and washers provided. **NOTE:** Base plate will appear loose until shower is fully tightened to surface. **FIGURE 1**

ASSEMBLING THE SHOWER

1. Select one threaded end of the extension pipe and wrap 2 to 3 times with Teflon tape provided. Then thread shower head onto taped end of pipe. **DO NOT OVERTIGHTEN. FIGURE 3**
2. Tightly wrap remaining threaded end of extension pipe with Teflon tape 16 to 20 times. Carefully begin threading wrapped end of extension pipe into fitting on upper shower tube. Gently complete threading pipe into shower using final turn so shower head is pointing in a downward direction. **NOTE:** If extension pipe is stopped by end of threads in any other orientation, rotate pipe in a counter-clockwise direction until it is pointed downward. The extension pipe must point in a downward direction for proper operation. **FIGURE 3**
3. Lift, place and align shower upper tube on lower tube. **NOTE:** Handle and shower head need to face the same direction. Press the upper tube down into lower tube. **FIGURE 2**
4. Turn locking ring clockwise to securely connect upper tube to lower tube. **FIGURE 2**
5. Attach garden hose to inlet port of shower and water supply. **NOTE:** Be sure hose is placed safely to avoid any tripping hazards. **FIGURE 1**
6. In case of leaks at the attachment point from step 3: remove extension pipe from fitting, 3 to 4 wraps of tape and carefully repeat step 3. **FIGURE 3**

INITIAL SET UP OF THE SHOWER

1. Turn and lift shower handle to FULL ON HOT position.
2. Turn on water supply to garden hose to fill shower. Shower will take about 2 minutes to fill. **NOTE:** Filling tube with valve in hot position ensures no air pockets are trapped in shower. This procedure is used for initial set up only.
3. When water flows from shower head, turn shower handle off. Turning the shower off allows the water to begin heating.
4. Shower is ready to absorb sunlight and heat your water. **NOTE:** Depending on available sunlight and outside temperature, it may take up to 1 hour or longer to fully heat the water. Using the shower too soon will yield less heated water. A recently used shower (that has not been emptied) will take less time as it will have retained some hot water.

USING THE SHOWER

CAUTION: ALWAYS START YOUR SHOWER COOL TO AVOID INJURY.

1. Simply lift the handle to its on position and you are ready to enjoy your sun-warmed water! **NOTE:** The faucet connected to garden hose must be turned on for shower to run.
2. Turn off water supply to shower when done.

WARNING: WATER TEMPERATURE IN SHOWER MAY REACH OVER 130°F (55°C)! GAME RECOMMENDS OPENING HANDLE IN THE MIDDLE POSITION BETWEEN HOT AND COLD, THEN SETTING TO DESIRED TEMPERATURE.

WARNING: IF SHOWER HAS NOT BEEN USED FOR MORE THAN THREE DAYS, GAME RECOMMENDS RUNNING SOLAR SHOWER FOR 2 MINUTES TO REMOVE STAGNANT WATER. STAGNANT WATER IN WARM ENVIRONMENT CAN PROVIDE A GROWTH ENVIRONMENT FOR HAZARDOUS BACTERIA.

OFF SEASON DISASSEMBLY:

1. Turn off and disconnect garden hose. **FIGURE 1**
2. Open handle and allow shower to drain (approximately 2 minutes).
3. Turn locking ring COUNTERCLOCKWISE to unthread, and gently pull shower tubes apart. **NOTE:** Water may splash out. **FIGURE 2**
4. Unbolt shower lower tube and pour remaining water out of unit.
5. Wipe down and store shower parts for next season.

DO NOT USE SALT OR OTHER ANTI-FREEZING METHODS. THIS WILL VOID THE PRODUCT WARRANTY.
