Wine Cooler

Single Bottle Wine Cooler

DIRECTIONS FOR USE

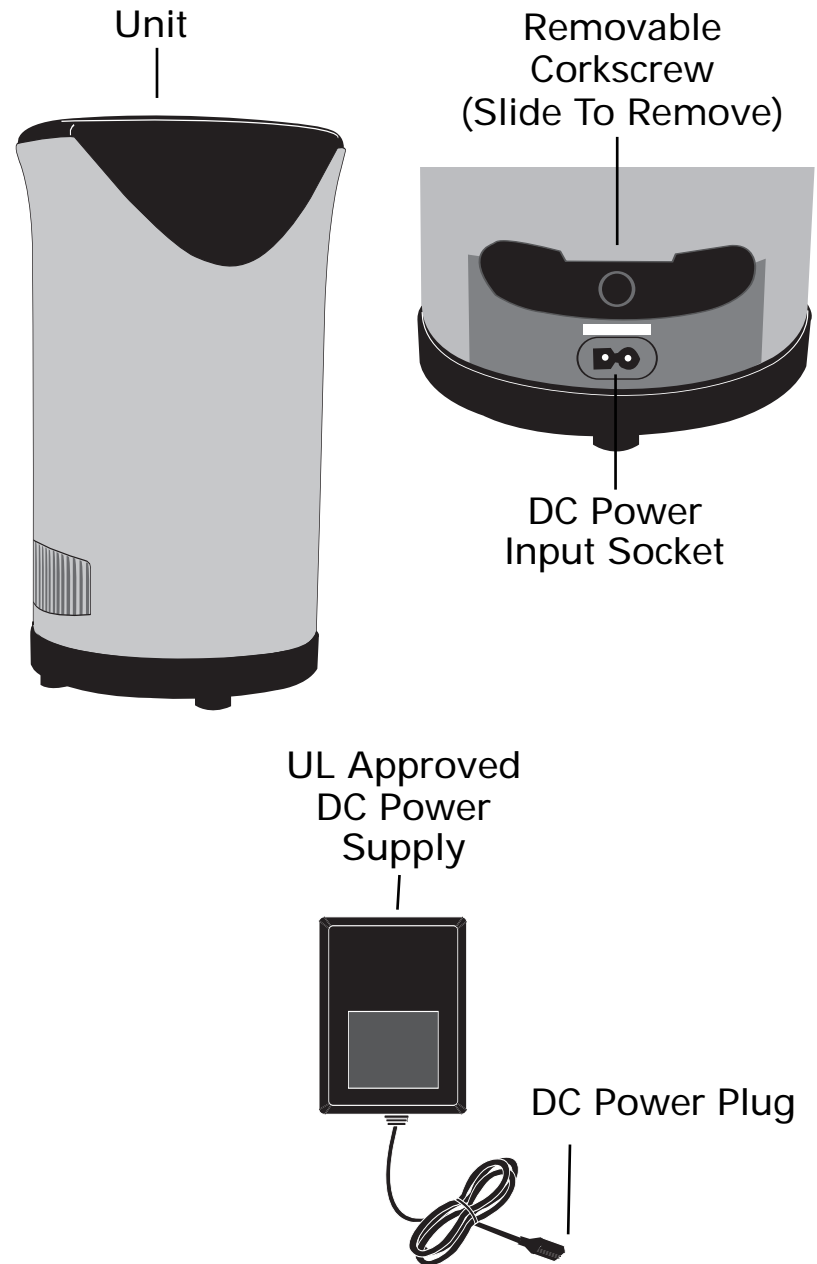

CAUTIONS:

- Do not put ice or water inside the container for cooling purpose.
- After using the Single Bottle Wine Cooler, disconnect the AC plug from the electric outlet.
- Avoid using the DC power supply in a wet or damp place.
- Avoid putting any paper, plastic bag or cloth underneath the Single Bottle Wine Cooler unit that may block the air inlet.
- If the fan inside the wine cooler does not operate with the UL Approved power adapter plugged into a wall outlet, check the electric circuit breaker to the wall outlet.

SPECIFICATIONS:

- Holds most white wine and champagne bottles
- Temperature: minimum 40°F
- Switching mode power supply: 12V DC 4.2 Amp
- Power consumption : 50W

PART IDENTIFICATION:

FEATURES:

The Single Bottle Wine Cooler uses Peltier technology to control the temperature. The unit is designed for cooling products, such as white wines and champagne without the use of ice or water. Enjoy your wine at a constant cool temperature.

1. Removable corkscrew included.
 2. Holds most white wine and some champagne bottles.
 3. UL Approved DC power supply.
 4. Insulating collar.
- **To avoid electric shock. Do not attempt to repair the wine cooler.**
 - **Any repair work must be done by qualified technician.**
 - **Specifications are subject to change for improvement without prior notice.**

DIRECTIONS FOR USE:

Plug the UL Approved power supply into a wall outlet and into the Single Bottle Wine Cooler. The sensors inside the unit detect the temperature of the aluminum container and the unit will begin to cool as soon as it is plugged in.

The unit keeps your pre-chilled wine at perfect serving temperature without ice. Eliminates serving with dripping wet bottles or soaked towels.

Room temperature wine will chill to drinking temperature in 2-4 hours depending on wine type and room conditions.
