

Bark STOP™ Portable

Ultrasonic Dog Trainer • Personal Siren • Flashlight

Congratulations on your purchase of Viatek's Bark STOP Portable. This unit was designed to transmit ultrasonic waves that are able to be heard by dogs for up to 50 feet. The ultrasonic sound emitted by Bark STOP™ Portable gets the dogs' attention and helps coach them towards improved behavior. The sound is irritating to dogs, and is inaudible to humans. Bark STOP™ Portable is ideal for training dogs or for mailmen, speed walkers, joggers and everyone. Bark STOP™ Portable can be used as a coaching device. Help control dogs that dig through your trash or flower beds! Coach your dog on what furniture they're not allowed on! Use the high-pitch signal to train a dog and improve its behavior.

PARTS DIAGRAM:

Directions for Use:

Installing the battery:

1. Snap off the cover to install one (1) 9V battery (battery not included)
2. Snap cover back into place.

Please Note:

- Bark STOP™ Portable ultrasonic sound output has not shown to be harmful to humans or animals.
- Monitor your flashlights intensity. If it appears to be weaken, check battery.

Operation:

1. To turn power on the flashlight, press and hold the side button (See Illustration). To turn off the flashlight, release the side button.
2. To activate the ultrasonic power, press and hold down the Ultrasonic Bark STOP™ Portable button (See Illustration). To deactivate the ultrasonic wave, release the Ultrasonic Bark STOP™ Portable button.
3. To activate the personal alarm, pull out the switch at the top of the device (See Illustration). To turn the personal alarm off, replace the switch at the top of the unit or press the personal alarm button to activate and release to deactivate

WARNING:

Disassembly of the electronic components within this unit may result in exposure to lead in the form of solder, which is known to the state of California to cause cancer, birth defects and other reproductive harm
